

## NES Health Scanner Instructions

Congratulations on embarking on a NES Health Bioenergetic program! Here is everything you need to know about using your Bioenergetic scanner and booking your appointment with a NES Health Practitioner.

### 1. Download your NES BioSync Scanner Software

#### For Windows/PC:

- Click this link to download the Windows Version of BioSync:  
<https://s3.amazonaws.com/nes-software/RELEASE/BioSync/BioSync.exe>
- Once the download has completed, double click the downloaded file "BioSync.msi"
- Follow the on screen instructions and click next in the installer
- Once the program is installed click finish and BioSync will open automatically

#### For Mac OS:

- Click this link to download the Mac version of BioSync:  
<https://s3.amazonaws.com/nes-software/RELEASE/BioSync/BioSync.dmg>
- Open the downloads folder, wait for the download to complete.
- Once download is complete 'BioSync.dmg' will appear, double-click this.
- A new window should appear, drag the icon on the left named 'BioSync' into the applications folder shown on the right. Close the window.
- Open the applications folder, search for 'BioSync', double-click to run.

### 2. Enter Your Login Info

- Username for your account is your email address.
- Password for your account is **myersdetox** (you may change your password once you login).

You may explore the NES Health Portal as you wait for your scanner to be delivered!

### 3. Fill Out Your Client Intake Form

After you have received your NES Health Bioenergetic Scanner, please fill out this form: [Client Intake Form](#).

#### 4. Book Your Appointment

Once you have completed your Client Intake Form, the system will direct you to book your appointment with one of our NES Health Practitioners.

#### 5. Perform Your Scan

*One day before your appointment*, perform your scan. Please make sure you have successfully installed the BioSync Software on your computer.

To perform your scan:

- Plug your scanner into a working USB port on your computer.
- Open BioSync and click “Scan”
- When the device is detected, place hand on scanner and click “Start Scan”.
- Once completed, click “Send Scan to Practitioner”
