

**Transcript: #376 The Ability of Scalar Light to Help Fight Pathogens and Toxins
with Tom Paladino**

Wendy Myers:

Hello everyone. I'm Wendy Myers. Welcome to *The Myers Detox Podcast*. You can learn more about me, and all about detoxification at myersdetox.com. Today we have a fantastic guest. This is such a good show. We have Tom Paladino here discussing such an interesting topic. We're going to talk about the ability of scalar light to eradicate pathogens and toxins. I talk a lot about bioenergetics on this show. I think it's very important because it really is the future of medicine. You can call it bioenergetics, energy medicine or what have you. This is something that has dramatically impacted my life, my health and my ability to wake up every morning with joy. I feel like I'm glowing. I feel so happy all the time, and also extremely hopeful.

Wendy Myers:

I credit all of that to a healthy lifestyle and to all of this energy work that I've been doing. It has had a number of different benefits. Today on the show, we're going to be talking about what exactly is scalar light. We'll be talking about where the energy from the earth comes from and what is this main source of energy. We're going to be talking about the exact mechanism that Tom uses to help impart healings to people. He actually uses a photograph of you, and puts that in a device that he uses that emits scalar light. We'll talk about how that works and how that's even possible. We'll also touch on the science of quantum entanglement, where energy is sent to your photograph and then sent to your body to elicit a change.

Wendy Myers:

We'll talk about all the different benefits that one can experience by doing a scalar light program. We'll also talk about Tom's program where you can try this for free and risk-free without any side effects, whatsoever. It is a really fascinating show today. Check it out. I know you guys listening to the show are concerned about your heavy metal load and your body burden of toxins. I created a free quiz at heavymetalsquiz.com. You get a free video series afterwards along with your results. You get a free video series that talks about all

your frequently asked questions regarding toxins. How long does it take to detox? What are the best tests to detox from heavy metals? What are the best ways to detox your body? There is a lot of really good information in this free video series, after you take the quiz. Check it out at heavymetalsquiz.com.

Wendy Myers:

Our guest today, Tom Paladino, is a researcher and humanitarian seeking to make a difference in the world by providing people with the education and tools to restore optimal health, by helping enhance their quality of life. Tom began research with scalar energy during his undergraduate years after developing a deep admiration for the father of scalar energy research, named Nikola Tesla. He was also able to study the work of a man Thomas Hieronymus who continued research on scalar energy. Hieronymus' major contributions included unbinding the RNA/DNA bonds that microbes play in the agricultural industry, rendering them harmless. Tom theorized that all energy in the universe initiates as scalar energy, and that the sun of our solar system and the stars of the universe, are the points of origin or the store houses for scalar energy. He further theorized that scalar energy is instructive energy as the entire universe is instructed by this divine essence.

Wendy Myers:

Subsequently, all spiritual, cognitive, emotional, and physical action in the universe is initiated and maintained by scalar energy instructions. Scalar energy provides the order in the universe. The existence of such energy not found within the electromagnetic spectrum, fascinated Tom. Inspired by these findings, he pursued a course of independent study seeking to better understand and subsequently harness scalar energy through the development of an instrument called scalar light. You can learn more about Tom and his work at scalarlight.com. Tom, thank you so much for coming on the show.

Tom Paladino:

It's my pleasure. Hi Wendy.

Wendy Myers:

Why don't you tell us a little bit about your background and how you got into scalar light and energy work?

Tom Paladino:

Let's first define what I'm doing. Scalar light, what does that mean? It's chi or prana or some people call it zero point energy, meaning, there's something besides electricity out there. What am I getting at? There's two energies. We understand electricity and magnetism, the electromagnetic spectrum. I work with another dimension called scalar energy. It's non-physical. We're going to discuss scalar energy in the next 45 minutes, how scalar energy can change our lives and how this is a new and upcoming technology. It's a new and emerging science. I've devoted my life to this research of scalar energy research. It is fascinating. Like any science, any pursuit of perfection or any specific emerging science, it really should grip somebody's imagination. It certainly grips my imagination. We'll get into just how special this energy is, what it can do and what it means to mankind.

Wendy Myers: Tell us what exactly is scalar light and energy healing. I firmly feel like this is the cutting edge. It's the future of medicine. It's the future of healing. Can you expand on that a little bit?

Tom Paladino: It is because it's fundamental. This new and emerging science will show us that this fundamental energy from the sun and the stars, is really the cause of all phenomena. We're dealing with the very quintessence, the very information system of the universe. That's why it's so fascinating to me. I'm dealing with the cause, not the effect. I'm working with scalar energy, this energy from the sun and the stars. Some people call that life force energy. Some people call that the mind of God. That's the consciousness of the universe. Those are the instructions of the universe. Imagine, a scalar energy instrument controls the instructions of the universe. We now have fundamental control over nature.

Wendy Myers: How can the scalar light be used to supply an endless supply of energy?

Tom Paladino: Well, there's a great scientist, Nikola Tesla, I'm sure many of you resonate with that name, Nikola Tesla. He developed scalar energy towers and he was able to capture that star energy. Scalar energy is an infinite supply of energy. That's what I am doing. I have a miniature model, if you will, but I have scalar energy instruments. Likewise, I can capture that star energy. Now consider what I'm saying. If this is star energy, then it's ubiquitous. It's everywhere. It's never failing. It's an eternal source of energy. What do I propose? That in the future, we're going to use scalar energy to overcome our energy obstacle, to overcome the energy crisis. Why? Because the energy crisis today is really guided by two principles, scarcity and distribution. With that in mind, with scalar energy, there is no scarcity.

Tom Paladino: It's sunlight, it's starlight. You have an infinite amount of sunlight and starlight. Then you can distribute it as you will because there is no barrier to entry, if you get what I'm getting at. There is no electromagnetic grid. There is no military industrial complex that you have to overcome. All you have to do is tap into the star energy and then distribute it as you see fit. This is the new energy of the future. We're not encumbered by any paradigm, by any political system or by any specific type of infrastructure. We are now in the driving seat, and in so doing, we have control over nature.

Wendy Myers: I know there's been over 200 inventions to supply totally free energy, but they get buried because the powers that be, don't want anything edging in on their profits or their oil money. It's just unfortunate since it's been suppressed. I love that the scalar energy can be used on an individual basis like by you working with people and nothing can interfere in that.

Tom Paladino: Imagine, star energy that can be accessed obviously anywhere. You don't need to drill for oil. You don't need telephone wires or certain types of an electrical grid. No, you just harness star energy, which is everywhere. The way I apply this is by way of a photograph. Now let me explain, my instruments work with photographs. People will send me a photograph. Here's one of my photographs.

I will take a photograph of a person and place it inside the instrument. The instrument works in a, if you will, a non-local capacity. We can work with anybody in the world by way of their photograph. There's no barrier to entry. Obviously, a photograph transcends time and space. You don't have to visit an office or clinic. To me, this is the energy of the future. Again, it can be readily distributed anywhere. We can readily administer this energy anywhere in the world with no barrier of entry. It is painless, simple and free energy. It's the game changer we're waiting for.

Wendy Myers: How does that work with just the photograph? I know there's a lot of information in the photograph. I mean, healers from all over the world can look at someone's photograph and tell a tremendous amount of information from that because it contains your essence, so to speak.

Tom Paladino: Yes. Very good point. You hit the nail on the head. My photograph is an energetic copy of me. My soul, mind, and body is incorporated, found and embodied in a photograph. My photograph is my energetic copy. I'll give you an example. If you look in a mirror, that mirror is the exact image of you. You are not the mirror, the mirror is not you, but the mirror copies you. My photograph copies my energetic signature. When I'm working with people, it's almost as if people bilocate. You don't have to be inside my instrument. Your photograph is inside my instrument. Again, your photograph is your energetic fingerprint and your photograph is your energetic copy or your energetic mirror of you. Now, this is beyond electromagnetic theory.

Tom Paladino: You cannot explain this by electromagnetic theory because there are two paradigms, there are two scientific books, there are two scientific theories. What I'm proposing today is contrary to electromagnetic theory. Why? I don't work with electricity and magnetism. I work with another dimension. Hence there are different rules and properties in that other dimension, which is a scalar dimension. There are two ways, there are two realities. There's two ways of looking at a person. One is, yes, they're in the flesh. That's the electromagnetic dimension. The other dimension is the non-physical dimension, the scalar dimension, which is the energetic dimension. What some people might call quantum entanglement or zero point energy.

Wendy Myers: We have a light body. This is scientifically proven. I was just looking at some of the research today. I forget the Russian scientist's name. I think it's Popolov. He's proven that our DNA puts off a light body. We have a light body that's apart from our physical body. You can send information to this energetic field, manipulate the DNA and do all kinds of things. What is it that you're doing? Is it non-specific information or healing information? What kind of information is it that you're sending to someone's body?

Tom Paladino: What I have discovered with my instrument is that we can do so many things. I'll just mention two or three modalities, two or three practices with a photograph. I have discovered that with a photograph, I can send information energetically to the photograph and I can break apart viruses and bacteria. Why? Because my

instrument controls the molecular bonds, the molecular geometry, if you will, of a virus or a bacterium. I can, with these instruments, break down the molecular bonds of a pathogen or germ such as the herpes virus. What happens is that the herpes virus falls apart. Imagine what I'm saying. I can take these instruments, break apart viruses, bacteria and parasites in a person. It's non-physical, it's just an influence of energy, a download of instructions, if you will.

Tom Paladino: It's painless because we're working at the molecular level, at the molecular intelligence or the molecular bond. It's not a chemical. It's simply information sent to you by way of your photograph that breaks apart a germ. It's effective and it's easy. Once the world wraps their mind around this, they're going to say, "Well, this is going to prove to be the cure for pathogenic disease all by way of a photograph". Remember, I don't work with any biological life form. I don't work with people in person. All of my work is done energetically with a photograph.

Wendy Myers: That's so compelling that you're talking about eradicating infections and pathogens, because so many people suffer from debilitating infections. For a lot of them, there are no tests for them. There's thousands of pathogens that people can have and there's no test for them, there's not very effective protocols, doctors aren't looking for them and people can be debilitated for years and years and years. Personally, I haven't done your program yet but I definitely want to try it. I use something similar. It's called a Spooky2 device. It does the same thing. It's sending frequencies to your body to kill parasites, but it's a huge investment. It's difficult for people to set up and use, especially someone who's brain fogged and ill. This sounds like such a simple way to address those things. You're so generous. I mean, you're offering it for free to people.

Tom Paladino: What am I trying to do? I'm trying to introduce this new science to mankind even though there's confusion and some people are resistant to it. Nonetheless, if you make this simple, painless, easy and free and we have free sessions on our website, then people will see the merit in this. They'll say that there's no chicanery, there's no subterfuge here. I really want to help people. That's the key. This is the way you forward a new and emerging science. You have to make it palatable. You have to make it simple, easy and painless. In this case, we offer free sessions. There's no barrier to entry. It's a simple welcome that we offer everybody in the world.

Wendy Myers: You also mentioned that it can help with toxins as well. Can you explain that a little bit? Is it neutralizing the toxins? How does that work?

Tom Paladino: That's correct. Let me give you an example. Many bacteria have endotoxins. When we're working energetically at the molecular level, we not only break apart the molecular geometry of a pathogen or a bacteria but we also break apart the endotoxins, the toxins inside that bacterium. The germ and the toxin cease to exist. The reason I say that with surety and with assurance is because working at the energetic level, you have fundamental control over the germ, the bacterium, as well as fundamental control over the toxin. Consider what I'm

saying. Not only will we break apart the bacterium but the bacterium ceases to exist. We also break apart the toxins, the waste products inside that bacterium. What does that mean? Well, there's no adverse side effect. There's no Herxheimer reaction. There's no toxic shock because the germ and the toxin cease to exist. We've changed their molecular structure. The germ and the toxin no longer exist. If it no longer exists, it cannot harm you.

Wendy Myers: Is this working by quantum entanglement or anything like that?

Tom Paladino: The entire universe is held together by the mind of God. It's the alpha and the omega mentioned in the Bible. What am I getting at? There is quantum entanglement. Everything is interconnected and only God could do that. This is an infinite universe with infinite entanglements. My point is, yes, scalar energy is the answer that mankind is looking for. Scalar energy, by virtue of the fact that it is quantum entanglement means that we have instantaneous communication with everything. If everything is quantum entangled, that means everything relates and communicates with everything instantaneously. That concept does pervade the universe. That concept will explain why the universe has such order and harmony.

Tom Paladino: If you do not have perfect harmony, perfect communication, perfect coherence, the universe would become disordered. It does not. The order of the universe really calls to mind that there is quantum entanglement, that quantum entanglement does indeed influence everything and quantum entanglement entails instantaneous and perfect communication. To have a solar system, a galaxy or universe that sustains itself, there has to be perfect order. You have to have perfect communication.

Wendy Myers: Yes, I firmly believe that, that there is a universal consciousness out there or a matrix, or you can call it source energy. There's a really interesting book that I've read, it's by David Wilcock called, *Source Field Investigations*. It provides scientific proof for what it is that we're talking about. This is firmly based in science. This is not woo-woo or anything of that nature. Everything I talk about is firmly based in science. I've had a tremendous amount of personal experience with bioenergetic and quantum entanglement types of programs like this, and have had a tremendous amount of success in my health and with my clients' health as well. I firmly believe that anything is possible. Any type of healing is possible.

Wendy Myers: I think people have to suspend their minds and really think beyond just this physical body. They have to think beyond taking this supplement or doing this protocol. Think beyond having to detox something. With those things, you do have to tend to your physical body, but there is so much more that can be accomplished with your health, with your emotional trauma, with whatever it is you're trying to do or whatever response you're trying to elicit in your body. It's so much more elegant and easy, working in this bioenergetic realm. It's so much more elegant, simple and easy.

Tom Paladino: It is. Why? Because it's the cause. I use this analogy. If you look at a freight train. If you want to know what powers the freight train, it's the locomotive. It's the engine. It's not the caboose. Mankind, Wendy, we too often concentrate on the caboose, on the effect. That's not where the power is. If you want to control a train, you do it by the locomotive, the engine. It's the same thing with the universe. Go to energy. Scalar energy is the primal energy, is the source energy of the universe. If you want to have mastery over the universe, if you want to have mastery over your body, do so with scalar energy.

Wendy Myers: Absolutely. Let's talk about how the quantum energy from the sun and the stars of the universe, heal mankind's suffering. You mentioned the sun and the stars earlier. Can you explain that a little bit more?

Tom Paladino: Well, I believe all light comes from God. I believe if you look at the universe, you have to say, "What is the cause of all this?" From a Christian perspective, I believe in God and I believe God is the author of light. That light is the first principle. Light sets everything into motion. Light, specifically scalar light, gives instructions to everything. With that thought in mind, everything, including our body receives light instructions. For instance, my instruments, they are scalar energy instruments. These are scientific instruments. This is not my thought progression. These are engineered scientific instruments. This is hardware. This is scientific hardware in the form of an instrument. Some of the instruments are on my website. Anyway, working with a scalar energy instrument, we control the scalar waves. I have found that imparting that scalar energy, we can influence the seven chakras.

Tom Paladino: The seven chakras are seven points of light. They're scalar energy points of light. We can influence those seven chakras with a scalar energy instrument. Western science does not even recognize this because Western science does not consider scalar energy. We who understand scalar energy or quantum entanglement realize that there are seven chakras. Lo and behold, the chakras are not composed of electricity. The chakras are composed of scalar energy. Hence, the seven chakras are seven processing points. They're scalar light processing points. That's the central nervous system, so to speak, of our body. The scalar energy central nervous system, the processing system. Those seven points of light instruct our body. First, we start with light, the instructions. Those instructions are embodied in our seven chakras. Once we perfect those seven chakras, then we have perfect instructions being imparted to our soul, mind and body.

Wendy Myers: Absolutely. I think a lot of people aren't aware that their crown chakra in their pineal gland, in their head, is a receiver for this information from source energy, universe, God or whatever you want to call it. People can be very much disassociated from that, disassociated from their intuition. Their intuition is messages from the universe that's telling them to do this or don't do that. I think it's really important for people to make efforts to get in touch with that, to help guide their life even more. Part of that is doing these types of healings in your body, clearing energetically all the stuff that I've been working on for the last few years, to improve my own health, joy, wellbeing and whatnot. You said you

have a free 15 day trial. Can you talk a little bit more about that? What do you do? How do you work with people beyond that 15 day trial period?

Tom Paladino: We always offer people free sessions to begin with. Why? Because this is unknown and I want people to feel comfortable. Our website is scalarlight.com. Anybody in the world can send in their photograph. You can send in photographs of your entire family. I'm going to add, please include your pets. Why? Because when you sign up for 15 days of free sessions, we will balance your chakras. You will feel better. You'll have a greater sense of ease and equanimity. We'll also cleanse the germs in your body as well as that of your pets, your animals. We do all of that energetically, by way of your photograph. If I may use this analogy, I'm holding in my hand a cellphone. When I'm calling somebody, obviously I am not inside a cell phone. It's my voice that's being transmitted by a cellphone.

Tom Paladino: When you send me a photograph, you don't physically visit my laboratory. It's your photographic source, your photographic cellphone that we work with. Working with you energetically to balance your chakras, to remove viruses, bacteria and fungi from your body. After 15 days, most people feel a lot better.

Wendy Myers: After that period, what are the things you focus on with people, on an individual or group basis?

Tom Paladino: What I try to achieve is this, a standardized session for everybody. Now, I don't claim to be a medical professional. I'm not. Remember, I'm in a new and emerging science. There is no nomenclature for what I'm doing. There is no specific category for what I'm doing. I work with people remotely. My sessions are standardized. I standardize them so that everybody, every man, woman and child can benefit from what I'm doing. I do not diagnose. You need to go to a qualified medical professional to get a diagnosis. I can promise you on my end that I can work with you energetically, with those standardized sessions.

Wendy Myers: I really encourage people to be open to this because energy medicine is the future of medicine. I firmly believe that because the old paradigm doesn't work that well. Say you want to do a parasite cleanse, which I've always dreaded, taking all these pills and tinctures that taste absolutely horrible. Then you have like die-off reactions. There has to be a better way than this. Working with energy, working with the body's energy field or scalar light, there's so many amazing ways to work with energy. Especially if you have been trying to get better for years and years and years, you need to listen to me. You need to be open to trying and doing something in regards to energy medicine.

Wendy Myers: When I'm working with a client who has tried so many different things and then I do something in regards to energy medicine, they have a huge radical shift that propels them towards the healing that they need to get better. I really encourage people to try this and work with Tom. I think he's fantastic. I love the work that you're doing. Also, offering this for free to people is amazing. There's no downside to it. It can't hurt you. There's only upside.

Tom Paladino: Thank you. That's our point. If you really want to heal people and you really want to make a difference in life, then go out and heal people. We try and bring down all the barriers. We try and cut through all the fluff and say, "Come on, bring on your photographs. Send us your photographs. We'll prove to you that this works". Why? Why does this work? Energy does not make a mistake. Energy is flawless. People make mistakes. I make mistakes. I'm a human being. Energy is fundamental. Energy is perfect. Scalar energy is perfect. Why don't you want to have this perfect energy get rid of your viruses, your fungi and your parasites in your body? Why don't you want this energy to create? We can also create micronutrients. We can create a vitamin and a mineral in your body. Why not do that? It makes a lot of sense to me. That's the way I look at it. We're taking the guesswork out of health. There's no guesswork with scalar energy. It's perfect intelligence.

Wendy Myers: What you just said there where you said, you can download a vitamin or mineral or whatnot, because everything has a frequency. Say you're using an essential oil, part of that is that frequency that it's eliciting in your body, and making that change. It's not just the scent affecting your limbic system. The same with vitamins and minerals. You can download those frequencies. I downloaded the frequency of human growth hormones the other day because I'm lacking in that. There's amazing things that you can do. You can measure all the frequencies in your body. You can download the frequencies of things that you need or are missing. You can change your DNA. It's just absolutely amazing what you can do with energy medicine. Tom, is there anything else that we left out of this conversation that you'd like to tell the listeners?

Tom Paladino: I appreciate the fact that you're so adept at this, Wendy. I'm really impressed. I'm impressed that the world is now waking up to this new and emerging science. I'll make this prediction. I've done this before. Scalar energy will change the world. It will have a greater impact than that of the computer. Scalar energy will have a greater impact than that of the computer someday. I thank you for being at the forefront of this and keeping up your good work. I'm proud of you.

Wendy Myers: Thank you. I'm just really personally interested in this and I've had amazing results, personally. I feel so good every day when I wake up and it's because of these energy medicine tools that I use and I talk about on the show. I also think part of the growing awareness of scalar light, energy medicine, bioenergetics or whatever you want to call it is this great awakening. This desire that people are having for more awareness of this greater consciousness that they can tap into and benefit from. They're not just relegated to our physical body. There's so many infinite possibilities in raising our consciousness. I think this is what you are doing and what I'm trying to do, trying to raise the consciousness of this planet and show that there's another way beyond just the physical.

Tom Paladino: Yes, indeed. Bravo.

Wendy Myers: Tell us about your website again and how people can work with you.

Tom Paladino: The website is scalarlight.com. Go to the homepage, you'll see a 15 day trial. You can upload as many as 12 or 13 photographs of family members and friends. Why not? Why not have your family become germ-free? I'm sure a lot of people in your family are carrying a lot of pathogens and germs. Why not upload their photographs so that they can become germ-free and balance their chakras. Then have us create micronutrients in their body, such as minerals and antioxidants. That's our 15 day trial. It's open to anybody in the world. It's free. There's no obligation. There are no tricks. We don't ask for anything. Just send us your photograph, that's it.

Wendy Myers: Do you have to have someone's consent to do that?

Tom Paladino: Yes. If you're an adult, please give your consent. If a parent is acting on behalf of their child, we want the parent to make that decision.

Wendy Myers: Okay, great. Are there any success stories or testimonials? I'm sure there's a lot. Can you give us some testimonials or stories of people that are having amazing results doing this?

Tom Paladino: Sure. Just this past week, somebody sent me a PCR test, a polymerase chain reaction test for the herpes virus. The person had the herpes virus for over a year. After our sessions, they had a diagnostic test and the herpes virus can not be detected. There's no viral load. Frankly, this is easy. This is common now. If you visit our website, there are thousands of testimonies. Those testimonies tell the story. Those testimonies are verbatim as the people write them. We don't intercept those testimonies. Those testimonies say that this non-physical session, this energetic session does indeed work.

Wendy Myers: How long have you been doing this?

Tom Paladino: My whole life. I'm 60 years of age. I've been at this for 50 years.

Wendy Myers: You don't look 60 at all.

Tom Paladino: Thank you. I feel quite young and I feel vibrant. I would have to attribute that to my lifestyle and to scalar.

Wendy Myers: I feel the same way. I feel so youthful and so healthy. I attribute that to bioenergetics and energy medicine as well. Tom, thank you so much for coming on the show. It was delightful to have you on. I find this topic so fascinating. I'm sure all the listeners feel the same way. Guys, go check out Tom's site. Everyone, thank you so much for tuning in to *The Myers Detox Podcast* where we talk about all types of subjects related to detoxing your body. I also want to help give you ideas about alternative ways to improve your health overall. Bioenergetics and energy medicine is definitely one of the things to try. Thanks for tuning in. I'm Wendy Myers of myersdetox.com. I'll talk to you guys next week.
